

Freeport-McMoRan Medical Advisory for Calama, Chile

The following immunizations are required for Freeport-McMoRan personnel residing in Calama, Chile. Immunizations are not required for short-term business visits.

- Twinrix (Hepatitis A/B combined). The Twinrix vaccine protects against Hepatitis A and Hepatitis B. It is a series of vaccines consisting of 3 doses spaced out over approximately 6 months. The first dose is given on day 0. The second dose is given 1 month after the first dose, and the third dose is given 6 months after the first dose. (Alternatively, an accelerated schedule can be used at days 0, 7 and 21-30 with a 12-month booster).

Immunization boosters are the responsibility of the employee to receive at the recommended schedule.
